Profile

Software Engineer with 8+ years of experience building scalable, user-friendly web applications. Strong frontend expertise in React, Next.js, and TypeScript, combined with full-stack experience using Node.js/Express and database-driven applications. Passionate about clean code, testing best practices, and delivering accessible, performant user interfaces.

Skills

Frontend: React, Next.js, TypeScript, Redux, Svelte, HTML5, CSS3

Backend: Node.js (Express), PHP (basic knowledge), MongoDB, REST APIs

Testing/Tooling: Playwright, Jest, Webpack, Git, npm/yarn

Other: Agile/SCRUM, Cloud hosting (Vercel)

Employment History

Software Engineer – Docler Holding, Luxembourg

June 2021 – Present

- Developed responsive, high-performance user interfaces using React, Next.js, and TypeScript.
- Worked with design systems to improve collaboration across product, design, and engineering teams.
- Expanded automated testing coverage using Playwright and Jest, ensuring robust deployments.

Software Engineer – Turkcell, Istanbul

Nov 2020 – May 2021

- Contributed to bipmeet.com, a video conferencing app.
- Implemented features for managing host/participant permissions.
- Fixed bugs and delivered new features based on business requirements.
- Tech stack: React, Electron, Redux, Express.

Software Engineer – Bilyoner.com, Istanbul

Aug 2018 – Oct 2020

- Developed isomorphic Node.js + Express + React application with server-side rendering.
- Implemented SSR for some pages and Redux for global state management.
- Collaborated with product and QA teams to ensure scalability and accessibility.

Software Engineer – Eteration, Istanbul

Jun 2017 – Aug 2018

- Contributed to a banking mobile app (client side and backend services).
 - Worked with React Native for mobile UI and Java/SpringBoot for backend APIs.
-
